## About us

Nok Trading is a privately-owned international investment and consultancy firm that invests with its own equity, not an angel investment network, venture capital fund or venture accelerator program. Operating in Turkey, Nok Trading offers solutions that make it advantageous for the future by providing training, application and support services in different fields.

It is our priority to find solutions to problems by analyzing the problems and needs in the best way possible during the enterprise, being in the foreign market and business/sales development process and to ensure the continuity of these solutions. We are not only an investment firm, but also a strategic consulting firm. We make a significant contribution to your business with our wide import and export network and marketing infrastructure. We offer tailored strategic consulting services to scale and grow your venture.
